## IX) Legislative procedure

Notes:

The draft Constitution distinguishes between - legally binding acts (laws, framework laws, regulations and decisions) and - non-binding acts (opinions and recommendations);

In terms of legally binding acts, it distinguishes between legislative acts (laws and framework laws) and non-legislative acts (regulations and decisions).

Currently, decisions in the area of agriculture are taken by qualified majority in the Council, with the European Parliament simply being consulted. The draft Constitution now distinguishes between the following types of decision:

- legislative acts based on a European law or framework law, which therefore use the ordinary legislative procedure. These include the common organisation of agricultural markets as well as other provisions necessary to pursue the objectives of the common agricultural and fisheries policies.

- non-legislative acts such as fixing prices, levies, aid and quantitative limitations, as well as the allocation of fishing opportunities. These come under the heading of European regulations or decisions taken by the Council on the basis of the draft Constitution, and in this case the EP is not consulted.

#### Article III-127:

Commission proposes	The <u>Commission</u> shall <u>submit proposals</u> for <b>working out and implementing the common</b> <b>agricultural policy</b> , including the replacement of the national organisations by one of the forms of common organisation provided for in Article III-124(1), and for implementing the measures referred to in this Section. Council and EP adopt laws or framework laws by c-odecision	2. <b>European <u>laws</u> or <u>framework laws</u></b> shall establish the common <u>organisation of</u> <u>the market</u> provided for in Article III-124(1)] and the other provisions necessary for the achievement of the objectives of the common agricultural policy and the common fisheries policy.
Since Council decides by regulation or decision (not European law or framework law) EP is not involved for - fixing prices, levies and aid	3. The <u>Council</u> of Ministers, acting on a proposal from the Commission, shall adopt the European <u>regulations</u> or <u>decisions</u> on <u>fixing prices</u> , <u>levies</u> , <u>aid</u> and <u>quantitative</u> <u>limitations</u> and on the fixing and <u>allocation of fishing opportunities</u> .

## XI) Budgetary rules

#### **GENERAL NOTES:**

#### **Own** resources

Only the Council, acting unanimously after consultation of the EP, will decide on the Union's own resources. This law will not enter into force until approved by the Member States in accordance with their respective constitutional requirements. However, more detailed rules will be determined by a law, adopted by a qualified majority in the Council after having obtained the consent of the EP.

#### Multiannual financial framework

The proposed multiannual financial framework will replace the current financial perspective. It will - within the own resources limits - determine the ceilings of the Union's expenditures over a period of five years. It will be adopted by a law of the Council acting by qualified majority, after obtaining the consent of the EP. Unanimity will still be required for the adoption of the first financial framework under the new Constitution.

#### Annual budget

The law determining the annual budget will be adopted jointly by the EP and the Council, with the European Parliament having the final word on all expenditure in the event of disagreement. Thus there will no longer be a distinction between compulsory and noncompulsory expenditure.

The budgetary procedure will have only one reading in each institution.
